

URBAN PLANNING

College of Design

2009-2010

CDN 162; Ph: (480) 965-7167

Description:

The BIS degree can prepare students for careers in urban planning. Students can select courses that include comprehensive planning, socioeconomic and environmental analysis, computer and analytical methods, planning law, site planning, urban design, and public-policy formulation and administration. Many students continue to specialize in planning at the graduate level. Students in planning are exposed to the theories, methods, and practices of the profession.
